

Beretta 20g SL3 Deep Scroll Over/Under

Serial Number SL0328B

\$22000.00

DESCRIPTION

Beretta 20g SL3 *Deep Scroll* Over-and-Under Shotgun based on a new action design by Beretta of machine made parts that are hand fit and finished. This is a trigger-plate action with sideplates on in a dedicated 20g scaled frame. The action uses the same low profile design as the Boss & Co. and Woodward patents with bifurcated barrel lumps and hinge stubs, or trunnions, on the action walls. Beretta SL3 also has mid-breech locking pins and a pair of passive lower locking lugs as well as Beretta's signature interlocking shoulders on the barrels and receiver. Moreover, the main bolt locking shoulders, hinge-stubs and lower locking lugs are replaceable.

The sideplates and action body are engraved in a deep cut, deluxe bold scroll pattern which is laser cut. The engraving is signed by the creator of the engraving pattern. Nuovo Casello.

The gun has a new, highly figured walnut stock by Cole's gunsmithing featuring a straight hand grip and a 14 5/8" LOP over a checkered butt. The stock has both a straight, bold figure and "fiddle-back" or vertical stripes making for a very eye-catching piece of wood. The gun retains the factory low profile forend.

The 30" mono-bloc barrels have 3" chambers and are safe for steel shot. The barrels have solid side ribs, a vented top rib, and a complete set of Beretta Mobil Chokes.

Gun remains in as new condition and is complete with both Beretta cases, a standard plastic case and a lightweight blue cloth case with leather appointments.

SPECIFICATION

Location	US
Make	Beretta
Calibre/Gauge	20g
Action	Trigger Plate
