

Stephen Grant Self-opening 20g Sidelocks

Serial Number 24032/3

£55000.00

DESCRIPTION

A pair of absolutely best quality Stephen Grant guns from a period in which the output of the company was at its highest point. Made in 1994 and built by the finest gun makers then working in the British trade, these game guns are perfectly matched and in remarkable condition.

The configuration of long barrels, long, Prince-of-Wales grip stock and 70mm chambers is ideal for modern game shooting with a 20-bore and the elegant side-lever operation makes them distinctively Stephen Grant in style.

Mechanically, they are fool-proof and perfect, with the Holland & Holland type self-opening mechanism and Southgate ejectors.

They retain almost all their original case colours on the locks and actions and the pair match perfectly, showing very little, if any signs of use. The combination of fine scroll engraving with tasteful gold highlights is stunning.

A pair of guns like this ordered today would cost in excess of a quarter of a million pounds, with a delivery time of over three years. They represent a rare opportunity to own a pair of best, modern, English, 20-bore side-locks that will perform beautifully for generations to come.
