

I. Fabbri Best Quality 20g/28g/.410" Three Barrel Set

Serial Number E707

\$174495.00

DESCRIPTION

Ivo Fabbri Best Quality Over/Under Small Bore 3 Barrel Set Engraved by Tomasoni. Built in 1989 and among some of the very first small bore guns done by Fabbri. This 3 barrel set includes 28" Vacuum Arc Remelting Steel barrels in 20g, 28g, and .410" bore with vent ribs and each with their own forearm all numbered in gold "1", "2", and "3" respectively. Gun weighs 6 lbs. 6 oz. with each barrel and each barrel is choked IM/F. The pistol grip stock of nicely figured and wonderfully checkered walnut measures 14 3/8" over a checkered butt. Receiver is in a bright finish and game scenes are engraved by "Inc. C. Tomasoni" featuring pigeons, mallards and grouse in incredibly detailed landscapes and accented by equally detailed rose bouquets and dense small scroll. Gun appears unfired and handled very little. Gun and barrels are complete in Maker's leather three barrel case.
